Running (club founder)  
WSET Level 2 Wine  
Photography & cooking  
Investing

### VOLUNTEERING

Trustee – Gwalia Male Choir  
Shelter from the Storm – night shift  
volunteer

### PROFILE

Technical media professional with 5+ years' experience in post-production, QC and content operations across broadcast, CTV, OLV, social and DOOH. Skilled in managing delivery pipelines from ingest to distribution, with strong knowledge of technical specifications, localisation workflows and format compliance. Independently built and deployed three AI automation agents on an enterprise platform, reducing manual turnaround across campaign reporting and production workflows. Calm under pressure and confident working across technical, production and client teams.

### EMPLOYMENT HISTORY

#### QC Analyst – Omnicom Production, London Jan 2022 – Apr 2026

- End-to-end QC and technical review across broadcast, CTV, OLV, social and DOOH for clients including Amazon and LEGO
- Designed and deployed three AI agents on Omni AI: compliance report processor, media plan research tool and campaign email workflow
- Managed file conversion, localisation, versioning and delivery to broadcaster and platform specs across international campaigns
- Technical input at key production stages; studio operator for camera, lighting and audio on corporate and advertising content
- Internal resource on encoding standards, format compliance and delivery workflows

#### Junior Online Editor – Picture Production Company June–Dec 2021

- Edited trailers and sports content to broadcast delivery standards
- QC, versioning and localisation for global multi-platform distribution
- Assisted senior editors in technical and creative refinements through picture lock

#### Freelance Credits 2020–present

- Home (Short): AC, drone op, data wrangler · Hollington Drive (ITV): Trainee spark, lighting rig
- La Cha Cha (Feature): AC, audio sync, data wrangler · Social / YouTube: Short-form content delivery

### KEY COMPETENCIES

- Technical QC (broadcast, CTV, OLV, DOOH)
- Localisation and multi-platform versioning
- Format compliance and delivery specs
- AI workflow automation & agent development
- Post-production pipeline management
- File ingest, encoding and transcoding
